EXPERIENCE

Software Engineer — May 2024 - Present
Texon Limited — Shewrapara, Dhaka

- Built and maintained responsive web applications using Next.js, TypeScript, and Tailwind CSS, focusing on performance, usability, and SEO. Created reusable components and layouts that improved development speed and ensured a consistent design system across projects.
- Collaborated with designers and backend developers to implement clean UI, API integration, and smooth data handling for dynamic page and Contributed to CI/CD setup using GitHub Actions, helping streamline deployment and reduce manual release steps.

Software Engineer — Feb 2023 - Apr 2024
e-Learning and Earning Ltd. — Kallyanpur, Dhaka

- Developed scalable web applications using Next.js, resulting in a 20% improvement in user engagement. Leveraged Next.js's server-side rendering and static site generation capabilities to significantly enhance application performance and SEO.
- Utilized Next.js to implement optimized data management solutions, emphasizing clean code principles. This focus led to a 25% reduction in code review feedback and an overall improvement in code quality

SKILLS

- **Frontend** : React.js, Next.js, JavaScript, TypeScript, Tailwind CSS, SCSS, Shadcn UI
- **Backend** : Node.js, Express.js, MongoDB, PostgreSQL
- **DevOps & Tools** : Git, CI/CD, GitHub Actions, Jenkins, Docker, AWS, Nginx
- **Testing** : Jest, Vitest
- **Others** : Basic UI/UX, Clean Code, Postman, Swagger

PERSONAL PROJECTS

ingoLMS

- Developed a fully responsive, role-based frontend using Next.js App Router, delivering separate UX flows for students, instructors, and admins. mobile-first accessibility, form validation to ensure intuitive navigation across devices and user roles.
- Implemented structured UI components for course enrollment, assignment submission, real-time class schedules, and student performance tracking using Tailwind CSS and React Hooks.

KrishiPath

- Designed and developed a clean, user-friendly frontend using Next.js and Tailwind CSS, optimized for mobile-first experiences in rural and low-bandwidth environments. Integrated real-time APIs to display live market prices, weather-based cultivation advice, and personalized content based on region and crop type.
- Focused on building an interactive, scalable UI system that educates and connects farmers to digital services, contributing to sustainable agriculture practices. Prioritized usability and accessibility by implementing clear navigation, multilingual support, and adaptive components for diverse screen sizes.

Newfolio

- Designed and built a fully responsive static portfolio generator using Next.js, focused on performance, SEO, and developer-centric customization. Implemented dynamic routing, custom meta handling, and theme toggling (light/dark) with smooth animations

EDUCATION

- **Northern University Bangladesh** — May 2024 - Feb 2027
  Bachelor of Science in Computer Science and Engineering (Ongoing)
- **Rangpur Polytechnic Institute** — Aug 2019 - Dec 2023
  Diploma in Computer Science and Technology — CGPA: 3.67
